1. Group Members:	<b>Leader:</b> Loleng, Justing Gerald G.  <b>Members:</b> Carpio, Christopherson C. Cayaban, Cedric Joel F. Llego, Jessica V. Tamayo, Janela F.
2. Question:	At the moment or in the near future, what 2 big personal decisions do you think you need to resolve? What's your final decisions? What did you consider to make a "good" decision?
3. Summary of Answers:	<p>The First Big Decision that Christopherson made is managing his allowance properly. The second big decision is what he would do after graduation Christopherson can't think of the final decision at the moment but I would consider the opinions of my parents and siblings. After getting their opinions, he will consider the pros and cons of their opinions and what Christopherson really wants. On the other hand, Cedric's two decision are: "Committing to my course." and "Always work on your character and strive to be the best version of you". Cedric is having doubts about his course but he actually made the decision to actually commit to his course. For the second decision, he also committed to improving his character. Cedric ultimately considered his future and the people around him because he wanted to be the best version of himself for the people that is important to him. Jessica's two big decisions that she needs to resolve is to finish her studies to be able to pay back all the sacrifices of my family and to have a better carriers ahead. Second one is to take care of my family I wanted to be with them always and provide all their needs and wants. Jessica mainly considered her family to make these decisions. Justin is thinking between going far away to live his life to the fullest and should he stay to where he come from, the final decision Justin made is to live far away and live my life to fullest. For him, it is good to live far because I don't want to be stuck that where I come from and other personal griefs. Finally, Janela's first big personal decision getting out of bed and starting her school requirements, even though she barely have enough sleep and rest, she chose to get up and start moving. The second big decision that Janela made in the near future is letting go of people who are no longer good for me and for my peace. Her final decision for this is to slowly drift away until she is no longer connected to them. The most important thing I consider to make a 'good' decision is what is good for her and for her studies.</p>
